

Kakao AGIT Interior Design

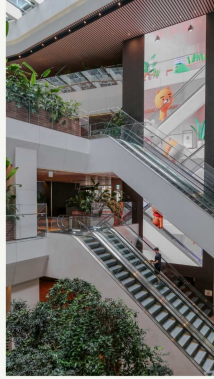

Abstract.
The Design Statement of the "Kakao AGIT" project revolves around prioritizing the well-being and productivity of employees. It was born out of the need to accommodate a growing workforce with diverse needs as Kakao expanded. This project focuses on creating a user-centered interior that blends elements of nature, functionality, convenience, environmental friendliness, and employee satisfaction. Kakao AGIT aims to provide a workspace that enhances efficiency, comfort, and environmental harmony while reflecting Kakao's core values and culture.
